

2006 Poster Art Contest

"Dancing in the Sunshine by the Sea"
Steven Mattos – 2nd Place

My name is Steven Michael Mattos. I was born on October 13, 1984, at the Tracy Hospital. I lived with my dad and step-mom while I was going to Banta Elementary School. The eight years I went there were fun, but I was glad to graduate. Then, I also went to West High School for four years and graduated. Later when I was going to college, I moved out of my dad's house in Tracy and moved into my mom's house in Stockton. For maybe half a year or so, I went to Delta College to take different classes.

There are several things I like to do in my spare time. I like making different art pieces and working with clay to make something nice for me or someone else. Sometimes at home, I like to work on fuzzy poster art projects. Every once in awhile when I get home, I like to play some Play Station 2 games for an hour or less. In my spare time, I also like to write secret stories about my family members. Sometimes the things I say are nice or sometimes they're not. I use to be in Special Olympics where they had many different sports. My favorite sports at the Special Olympics were bocce ball and skiing. I did that all through high school.
